Resilient Futures

Workstream 1 : Scenario and Episode Development

Prof. Andrew Dainty[1], Dr Pete Fussey[2], Dr Dan Sage[1], Dr Indraneel Sircar[2], Dr Chris Goodier[1]
[1]Loughborough University, [2]University of Essex

Global Uncertainties
Security for all in a Changing World

Review of existing scenarios

Expert interviews

PESTEL Analysis

PESTEL

Political • **E**conomic • **S**ocial • **T**echnological • **E**nvironmental • **L**egal

Multi-stakeholder workshop
(Event 1)

Expert interviews
(Scenario refinement & development)

Resilient Futures Scenarios

Embracing new infrastructure technologies

| High-tech hamlets | iWorld |

Independent divergent world ←→ Interdependent convergent world

| Local power for local people | The global village |

Resisting new infrastructure technologies

Scenario stress testing

Drawing out resilience implications

Episode and scenario narrative development

Outputs

R-Futures Demonstrator (Workstream 3)

Reports and academic journal papers

Further empirical work

Focus group data collection (Workstream 4)

FUTURES

Disasters

Society and Space

Resilient Futures Stakeholder Workshop Report
