Including participants from

NaCTSO  
Arup  
BAA  
Network Rail  
The British Transport Police  
DECC  
The Environment Agency  
DEFRA  
UK Energy Research Centre  
National Grid  
Costain

12 Focus Groups with 41 participants across the UK (WS4)

Event 1 Workshop December 2011 (WS1).

## Academic Outputs (so far)

- Nine academic papers published or submitted to peer-reviewed journals and edited volumes (see handout and 'Academic Outputs' poster)
- Multidisciplinary academic collaborations and submission to publications specialising in geography, emergency planning, civil engineering, sociology, futures studies, computer science and complex systems.
- Six conference papers in UK, US, Japan and Belgium

## Legacies : The future for R-Futures?

- Scenarios, episodes, demonstrator (free to use & free of IPR)
- Building an extended R-Futures network? Maintaining links between academic, policy and practitioner communities.
- How might R futures work help inform future work in this area? Send ideas and keep in touch!
